

## **GDBBS Student Book Sections In Calendar Year 2008**

### **BCDB**

#### **Jansen Spayd, Katherine**

Jansen, KM and GK Pavlath. 2008. Molecular control of mammalian myoblast fusion. In: Methods in Molecular Biology: Cell Fusion. (eds.) Totowa, NJ: Humana Press, In press.

### **GMB**

#### **Kasinski, Andrea**

Park, HR, LM Cockrell, Y Du, A Kasinski, J Havel, J Zhao, F Reyes-Turcu, K Wilkinson and H Fu. 2008. Methods for protein-protein interactions. In: Molecular Biomethods Handbook 2nd Edition. John M. Walker, Ralph Rapley (eds.) Humana Press, In press.

### **MSP**

#### **Havel, Jonathan**

Park, HR, LM Cockrell, Y Du, A Kasinski, J Havel, J Zhao, K Wilkinson and H Fu. 2007. Protein-protein interactions. In: Molecular Biomethods Handbook, 2nd Edition. (eds.) Humana Press, In press.

#### **Kliem, Michele**

Kliem, MA and T Wichmann. 2008. Basal ganglia, models of function: normal and disease. In: Encyclopedia for Neuroscience. G Adelman and B Smith(eds.) New York, NY: Elsevier, In press.

#### **O'Connor, Roderick**

O'Connor, RS and GK Pavlath. 2008. Relaying the signal during myogenesis. Intracellular mediators and targets. In: Skeletal Muscle Repair and Regeneration. TA Partridge and S Schiaffino(eds.) In press.
